

To Reach Your Business Goals, *Reach for the Cloud.*

Progressus is next-generation Professional Services Automation and ERP software, **mobile-enabled** and architected for the **intelligent cloud**.

Progressus provides all the capabilities needed to manage professional services and project-based businesses of any size – operating in any geography. Functionality spans all the important processes in your firm – resource management, project management, sales and marketing, human capital management, and financial management – to give you unparalleled insight and control of all of your critical business functions. Built on the **Microsoft Dynamics 365 Business Edition** platform, it is constructed for the intelligent cloud and provides role-based clients optimized for any browser or mobile device.

Dynamics 365

Dynamics 365 is a multi-language, multi-currency business management solution that helps companies manage their accounting and finances, supply chain, and operations.

Dynamics 365 provides **native integration with Microsoft Office 365**: When your email, calendar, and files seamlessly come together with your data, reports and business processes, you get an integrated experience no other stand-alone project management or enterprise resource planning (ERP) solution can match.

To learn more about how Progressus can help you boost productivity, efficiency and build a system that provides the answers you need to make critical business decisions, visit www.progressussoftware.com or call 888-696-7276.

Progressus is a product of Plumline Consulting. For over two decades, the Plumline team has been the leader in developing solutions for Professional Services and Project-based businesses on the Microsoft Dynamics Platform. Plumline leveraged deep industry knowledge and the experience of working with thousands of customers and Dynamics 365, Microsoft's state-of-the-art ERP platform, to develop Progressus – the next generation in Dynamics solutions.
