

Fact Sheet: Progressus Software Project Reporting, Analytics & Forecasting

KPI	Progressus provides automatic access to project factors, where it is possible to see client rate, invoice rate, earning rate and efficiency rate per resource.
Dashboard	Multiple windows can be opened at the same time making it easier to view data for several projects in one main window. Multiple projects can be viewed in one window so each project does not have to be opened separately.
Extensive Data Views	View project data in a project summary, drilling down to view underlying information and get specific details about project transactions.
Easily Understandable Information	Enable project managers to analyze information more effectively by presenting project and task data in familiar profit and loss (P&L) formats.
Income Analysis	<p>Using income analysis you can create forecasts of your cash flow, pipeline, turnover, expenses, etc.</p> <p>Income analysis can be done across projects so data can be used for statistics or overviews.</p>

Progressus is a product of Plumline Consulting. For over two decades, Plumline has been the leader in developing solutions for Professional Services and Project-based businesses on the Microsoft Dynamics Platform. Plumline leveraged deep industry knowledge and the experience of working with thousands of customers and Dynamics 365 Business Central, Microsoft's state-of-the-art ERP platform, to develop Progressus – the next generation in Dynamics solutions.
